EXPERIENCE

Dell Technologies

June 2021 – Ongoing

Assistant Editor, Dell Technologies Broadcast

Los Angeles, CA (Remote) Nov 2021 – Ongoing

- Edit videos and broadcasts for executive communications and other productions
- Create graphics packages for events and broadcasts: lower thirds, bumpers, transitions, looping backgrounds, and 2-boxes
- Support live broadcasts in-person and virtually, editing clips in real time and editing graphics requiring quick turnaround

Project Intern, Global B2B Marketing

Los Angeles, CA (Remote) June 2021 – Oct 2021

- Analyzed B2B video production process for optimization; met with multiple experts to research and document process
- Drafted SOP for standard video handover to speed up communications upwards of one week per video
- Produced graphic animation in Ai and AE, leveraging existing assets, to explain our org; created script and storyboard

USC Publications

Aug 2017 – May 2020

Chief Photographer and Assistant Editor

Los Angeles, CA

- Photographed significant events and directed photo shoots for publication, capturing emotional moments in time
- Constructed page layouts in InDesign utilizing paragraph styles and guides to keep pages consistent; edited proofs for errors
- Adjusted and color corrected photos in Photoshop and applied layer masks for special effects on page layouts

AYCH Electronics Corporation

Jul 2019 – Sept 2019

Multimedia Designer

Tumwater, WA

- Transformed user experience of website by refining visual hierarchy, ease of navigation, and communication
- Designed graphics in Illustrator for media campaigns utilizing a multi-layered workflow and global color swatches

Washington State Economic Services Administration

Jul 2018 – Sept 2018

Content Development Intern

Olympia, WA

- Enhanced SharePoint platform's visual hierarchy and merged relatable pages to alleviate unnecessary user clicks
- Designed a formula-intensive Excel spreadsheet with dynamic bar charts and visualizations to communicate critical data

USC School of Cinematic Arts

Aug 2017 – May 2020

Media Assistant

Los Angeles, CA

- Managed equipment reservation system for student checkout and assembled division events and student showcases
- Utilized microphones and video cameras to record audio and video of division events
- Coached students in media software and programming courses and how to use division equipment

PROJECTS

Sept 2017 – May 2020

Gamified Photography Gallery – Interactive Photography Experience

- Designed a photography exploration game using Unity 3D and C# scripting; features photography insights and concepts
- Scripted event triggers, collectibles, and scenes; designed user interface and level design; and imported textures and audio
- Conducted playtest sessions for critique and facilitated controls, difficulty, and navigation to produce the final product

Hexagons – Human-Activated Engagement

- Built an interactive wall projection of hexagons that responds and moves when users walk past an RGB camera
- Programmed in the Processing IDE (a Java library) utilizing classes, functions, variables, and optical flow
